Organization

- Program Committee Chairs: **Nenad Mladenovic and Dragan Urosević**, Mathematical Institute SASA, Belgrade, Serbia.
- Organizing Committee Chair: **Zorica Stanimirović**, Faculty of Mathematics, University of Belgrade, Serbia.

We would like to invite you to the **XLII International Symposium on Operations Research (SYM-OP-IS 2015)**. **SYM-OP-IS 2015** will be organized by the Mathematical Institute SANU, Faculty of Mathematics in Belgrade and The Yugoslav Society for Applied and Industrial Mathematics (JUPIM) from 16-19. September 2015 in Ivanjica, Serbia.

Scope and Objectives. **SYM-OP-IS** has been a national symposium with international participation since 1974. Over past years, the number of international participants was growing, and from this year **SYM-OP-IS** has officially become an international meeting. It presents an annual gathering of operational researchers in order to exchange scientific and technical information achieved in the development and application of Operations research methods.

The Symposium Programme comprises plenary lectures and theme sections which accommodate the exchange of ideas and the review of relevant issues through valuable encounters of the representatives of the academic body and industry, both from Serbia and abroad.

The main aim of the Symposium is the development and applications of new Operations research methods, models and techniques. We believe that this year program will be interesting as much as in previous years, not only for researchers but also for students and businessmen who are interested in implementation of new solutions based on the methods of operational research in order to improve their business.

Submissions The submission of papers ends on June 01, 2015. The accepted papers will be included in the **SYM-OP-IS Proceedings**, which will be in paper and electronic format registered with ISBN. The official languages of the conference are English and Serbian.

Publications. Papers presented at the symposium may be submitted for publication in: the journal from the SCI list **Mathematical Problems in Engineering** (IF: 1.082) and **Yugoslav Journal of Operations Research** (listed in Scopus).

Venue The conference will be held in hotel Park, Ivanjica, Serbia.
